

Identification of new studies published in 2020-2021 via databases

Identification

Records identified from:
Databases (n = 2)
MedLine and PsycINFO

Records removed before screening:
Duplicate records (n = 1)
Records removed for other reasons (n = 0)

Title and Abstract
Screening

Records screened
(n = 1711)

Reports excluded (n=918): Not
concussion (n = 201)
Not ready (n = 50)
Not human (n = 206)
Not pediatric (n = 255)
Not original research (n = 51)
Not related to the guideline (n = 154)

Full Text Screening

Reports sought for retrieval
(n = 749)

Reports not retrieved
(n = 0)

Reports assessed for eligibility
(n = 749)

Reports excluded (n=303)
Not concussion (n = 15)
Not ready (n = 210)
Not pediatric (n = 55)
Not original research (n = 23)
Not related to the guideline (n = 43)
Duplicate (n = 76)

Included

**New studies included in
the Guideline (n = 446)**
